Dublin, Ohio

brockshaffer.dev

I am a current high-school student in Dublin Ohio. I have always had a passion for technology, having programmed for over five years, and provide technical support for my father's business. Working with computers has taught me to be highly adaptable, and extra-curriculars have pushed me to take risks and grow as a result. I'm always looking to learn, and I hope you will give me the opportunity to do so.

Experience

IT Department Internship

FST Logistics, February - March 2025

A 6-week internship where I got to see how an IT department works in a medium-sized company

Software Engineering Internship

Outcomes, April - May 2025

A 5-week mentorship where I gained insight into software at a large scale, and how products are planned, shipped, and maintained.

Office Assistant

The Shaffer Group, June 2024 - Present

No title fits the work I did. Ranged from running documents, providing IT support, broad contractor work, photography, and more.

Warehouse Associate

Microcenter, October 2023 - June 2024

Worked in a fast paced environment, with an emphasis on thinking on your feet and problem solving.

FAA Remote Pilot License

July, 2024

Gained this license because of a passion I have had with drones and photography in general.

Core Skills

5+ Years of Programming

Golang, Rust, Javascript, Java, Python

Problem-Solver

Team-Player

Highly Adaptable

Academics

Dublin Coffman Highschool

Dublin, Ohio, Graduate May, 2026

I currently have a 4.13 GPA, and have completed several Honors and AP level classes

Cybersecurity Academy

Year 1, August 2022 - May 2023

Young Professionals Academy

January 2025 - Present

AP Computer Science A

Scored 4, August 2022 - May 2023

Extra-Curriculars

Taekwondo

2012 - August 2022

I dedicated over a decade doing martial arts, achieving the rank of 3rd Degree Black Belt. It taught me self-discipline, commitment, and more.

Ski Club, Snowboarding

December 2020 - Present

Snowboarding taught me to take risks and strive to improve in what I enjoy.

Track & Field

February, 2023 - Present

Running track showed me that given time, improvement can be seen. I strive to stay athletic and keep improving my times.

Robotics Club

January, 2025 - Present

improving my programming skills in a team environment. The team uses Java for programming.
