📍 Dublin, Ohio

↗️ **brockshaffer.dev**

I am a current high-school student in Dublin Ohio. I have always had a passion for technology, having programmed for over five years, and provide technical support for my father's business, teachers, and other students. Working with computers has taught me to be highly adaptable, and extra-curriculars to go beyond my comfort zone. I'm always looking to learn, and I hope you will give me the opportunity to do so.

## Experience

### IT Department Internship

*FST Logistics, February - March 2025*

A 6-week internship where I got to see how an IT department works in a medium-sized company

### Software Engineering Internship

*Outcomes, April - May 2025*

A 5-week mentorship where I gained insight into software at a large scale, and how products are planned, shipped, and maintained.

### Office Assistant

*The Shaffer Group, June 2024 - Present*
No title fits the work I did. Ranged from running documents, providing IT support, broad contractor work, photography, and more.

### Warehouse Associate

*Microcenter, October 2023 - June 2024*

Worked in a fast paced environment, with an emphasis on thinking on my feet and problem solving.

### FAA Remote Pilot License

*July, 2024*

Gained this license because of a passion I have had with drones and aerial photography.

## Core Skills

### 5+ Years of Programming

Golang, Rust, Javascript, Java, Python

### Problem-Solver

### Team-Player

### Highly Adaptable

## Academics

### Dublin Coffman Highschool

*Dublin, Ohio, Graduate May, 2026*

I currently have a 4.13 GPA, and have completed several Honors and AP level classes

### Cybersecurity Academy

*August 2022 - May 2023*

### Young Professionals Academy

*January 2025 - May 2025*

### AP Computer Science A

*Scored 4, August 2022 - May 2023*

## Extra-Curriculars

### Taekwondo

*2012 - August 2022*

I dedicated over a decade to martial arts, achieving the rank of 3rd Degree Black Belt. It taught me self-discipline, commitment, and more.

### Ski Club, Snowboarding

*December 2020 - Present*

Snowboarding taught me that to improve my skills, I have to push outside my comfort zone.

### Track & Field

*February, 2023 - 2025*

Running track showed me that given time, improvement can be seen. I strive to stay mentally and physically fit.

### Robotics Club

*January, 2025 - Present*

improving my programming and engineering skills in a team environment.
